

## Oct 16 Brandon Hills Exploratory Hike

The mission: to hike the only two trails out of the 46 named trails at Brandon Hills that I have not yet hiked.

The group set off at 10:00 a.m. Arron and James headed down Easy-Up Trail and we were soon on the Death Valley Trail. This Trail was a major cardiac workout, especially the last piece. Then we were on to the Lucky 3 ridge trail and Lucky 2 trail to the Old Blue Car for a quick snack break and the replacement of a missing geocache. From the Old Blue Car we headed east down Paul's Trail, on to Ron's Hill trail, then South on Pothead's Graveyard Trail where a new geocache was placed. From there it was a straight hike south on the Gun Club Trail back to the trailhead.

Mission accomplished: 2 new trails added to the list of 46 Brandon Hills trails hiked and a new geocache added to Pothead's Graveyard trail to increase my hidden cache count at the Hills to 45.
